# THOMAS REPSOLD PESSOA

Texas, USA | 305-391-7603 | tomecosabs@gmail.com
LinkedIn | Portfolio: portfolio-thomas-pessoa.vercel.app

Detail-oriented Software QA Analyst with 4 years of experience testing web applications across the full software development life cycle. I write clear, thorough test cases (200+ documented), find the issues that matter to users through manual, exploratory, regression and API testing, and I am growing my automation skills with Cypress and Playwright. I work closely with developers and product teams in Agile environments and understand both the technical and business side of a feature. A retail leadership background keeps me focused on the real user. Bilingual (English and Portuguese), U.S. citizen, and always building, with my own QA workbook, demo store and portfolio projects.

## WORK EXPERIENCE

**Motrix Techknowledge** — **Rio de Janeiro, Brazil**
*Software quality assurance analyst* — *September 2022 - Present* ***(remote)***

- Created and documented over 200 test cases, ensuring comprehensive testing coverage across all project phases, which significantly reduced defect leakage.
- Conducted manual testing on critical features, which enhanced software usability and functionality, leading to fewer user-reported issues.
- Developed and repaired automation tests using Cypress to improve efficiency in the testing process (Basic proficiency).
- Collaborated with team members in utilizing Behavior-Driven Development (BDD) methodology to validate all project requirements were met.
- Contributed to other layers of the testing pyramid. This includes work with API Integration Tests using Postman, showcasing involvement in integration testing.
- Participated in acceptance testing, ensuring software met all predefined acceptance criteria, resulting in a higher pass rate in user acceptance testing (UAT).
- Utilized browser developer tools to debug and troubleshoot issues on web pages, ensuring optimal functionality and user experience.
- Effectively managed and executed QA tasks in a remote work environment, maintaining clear communication and coordination with the team.
- Engaged in company-provided online courses to enhance and expand knowledge and skill set in software testing and development.

**Flexy E-commerce Platform** — **Florianópolis, Brazil**
*Software quality assurance internship* — *May 2022 - September 2022*

- Applied knowledge of Software Quality Assurance methodologies, including functional testing, contributing to clean, stable releases during the internship.
- Utilized experience to create comprehensive quality test plans and generate detailed test reports.
- Employed exploratory testing techniques, identifying more than 10 high-impact issues, improving overall software stability.
- Gained basic proficiency in running Automation tests using Cypress to enhance testing efficiency.
- Acquired foundational experience in conducting API Integration Tests using Postman (Basic/Intermediate proficiency).
- Thrived in a fast-paced environment, showcasing adaptability and quick learning capabilities.

**Trudon** — **Aventura Mall, Florida**
*Assistant manager and sales associate*

- Top-selling sales associate at Trudon.
- Served as assistant manager, supporting daily store operations and the sales team.
- Advised customers, answered questions and resolved concerns to deliver a positive shopping experience.
- Managed stock and used Excel to track inventory.

## PROJECTS

**QA Cart** | React, TypeScript, Vite | Jira | GitHub | Vercel | github.com/JohanJoestar333/qa-project

- Built a small online store (login, catalog, cart, checkout, order confirmation) as a realistic system under test and ran it like a real company, with Jira tickets, a feature branch and pull request per ticket, and separate staging and production environments. Live demo.

- Checked every change on the Vercel preview and staging deployments before release, and documented the test data, pricing rules and testable areas (login validation, access control, stock limits, price math).

**QA Test Case Workbook** | Manual testing | Excel
- Designed a reusable workbook of 45 manual test cases for the Luma demo e-commerce store, with a structured test case template. Download the workbook (Projects section of my portfolio).

**QA Portfolio Website** | React, Vite | Vercel | portfolio-thomas-pessoa.vercel.app
- Built and deployed an interactive portfolio showcasing my testing toolkit, test scenarios, certificates, projects and writing on QA and AI, including an interactive QA Lab.

## EDUCATION

**Associate degree**: Systems analysis and development
UNISUL · Florianópolis, Brazil · January 2024 · (Completed)

**Related Coursework**: The curriculum included software modeling, engineering methods, distributed and mobile systems, computational security, and programming for computational solutions. It covered connectivity, web/mobile usability, game development, software management, and quality assurance. Professional development and a customizable digital curriculum unit were also included to support career readiness.

**Magnet High school**
D.A.S.H. · Miami, Florida · April 2019 · (Completed)

## CERTIFICATIONS

**Claude 101 | Claude Academy**
Certificate · October 2026 · (Completed)

**Introducing AI | Raspberry Pi Foundation**
Certificate · October 2026 · (Completed)

**Craft Precise Prompts for AI Models | IBM**
Certificate · (Completed)

**Database Modeling & MYSQL POSTGRESQL**
Education · April 2022 · (Completed)

**PRONATEC Mobile Devices Programmer Certificate**
Education · November 2021 · (Completed)

## SKILLS

**Testing:** Manual, exploratory, regression, functional and acceptance (UAT) testing; test case writing; test plans and reports; API testing; BDD; automation maintenance.

**Automation:** Cypress (basic), Playwright (basic), GitHub Actions, Jenkins.

**Tools:** Postman, Jira (advanced), ClickUp (advanced), GitHub (intermediate), Slack (advanced), browser DevTools, Photoshop (advanced).

**Web and AI:** HTML (intermediate), CSS (intermediate), JavaScript (intermediate), TypeScript (basic), React (portfolio), AI prompt writing.

**Business:** Customer service, sales, inventory management, Excel, team support.

**Methodologies:** Agile, Scrum, Kanban.

**Languages:** English (fluent), Portuguese (fluent).
